

# modelling board, sheet & foam

We supply a wider range of materials through the DT catalogue; here are some products popular with artists.

## POLYPROPYLENE SHEET

Can be easily cut, scored and bent and is used for packaging, construction and graphics. Provides an attractive, contemporary surface for print and project covers.

### TRANSPARENT COLOURS

POLYPRO--2 **A2+** (650 x 550mm) 10 sheet pack 800 micron  
POLYPRO--4 **A4** 25 sheet pack 800 micron

**Transparent Colours:** Clear Frost (**A**), Black (**TB**), Red (**TR**), Blue (**TBL**), Green (**TGR**).

### OPAQUE COLOURS

POLYPRO--2 **A2+** (650 x 550mm) 10 sheet pack 800 micron  
POLYPRO--4 **A4** 25 sheet pack 800 micron

**Solid Colours:** White (**WA**), Black (**BA**), Red (**RA**), Blue (**BLA**), Green (**GRA**), Yellow (**YA**).

**POLYPROPYLENE MIXED PACKS** You can mix your own packs from across the Transparent and Opaque ranges with the exception of Clear Frost, which must be ordered in full packs. Please add colour code or name for single packs.

## CORRUGATED KRAFT BOARD

Especially rigid form of corrugated board with a 300gsm natural kraft liner on both sides - uses include construction, model making and painting.

MBKRA1 **A1+ size** 25 sheet pack 2mm thick

## GREYBOARD

Rigid, high-grade dutch greyboard.

GBA2P1 **A2+ size** 25 sheet pack 1mm thick  
GBA2P **A2+ size** 25 sheet pack 2mm thick

**Corrugated Kraft Board**

**Polypropylene** artwork - Laura Garratt, Loughborough University

Burton College

**Styrofoam** model - Warwickshire College

*"The combination of quality and price offered by Seawhite gives teachers and students, in all years, at the International School of Toulouse the luxury of being able to use a really extensive range of media and techniques. In addition, no nonsense ordering and processing, plus reliable and rapid delivery to the South of France has meant that we have rarely had to resort to using alternative, and far more expensive, outlets."*

**Martyn Dukes, Director of Art & Design Department, International School of Toulouse, France.**

## STYROFOAM

Fine grain polystyrene foam, widely used for model making. Easily shaped, Styrofoam can be glued with Zoosamun PVA and painted with ready mix or acrylic.

STY50P **50mm block** 800 x 600mm box of 3  
STY80P **80mm block** 800 x 600mm box of 2
