

# print storage racks

For exhibiting work, keeping prints or storing polyholdalls - these racks are wonderful value - we paid more than £100 last year for the same metal rack for our factory shop!

## SOLID ELM PRINT RACK

An opportunity to bag a bargain - light and easy to store - this rack looks great at exhibition time.

DAPRW     **Wooden Print Rack**     each

## METAL PRINT RACK

This rack usually is high quality and usually comes with a price to match; we have seen schools make good use of them for storing folders, they are robust yet easy to move.

DAPRM     **Metal Print Rack**     each

*"Just a quick note to say thanks for supplying our order so promptly... we are switching as much of our ordering to you as possible, not only have we found your materials to be better quality than our general supplier, the prices are competitive, your service is much more reliable and your staff incredibly helpful, thank you!"*

**Steve Jackson, Head Teacher, Loscoe School.**
