

# foamboard tools

We have often been asked if there are specialist tools for cutting foamboard. Foamboard is easy to cut with craft knives but we have been aware of some very handy tools that are designed specifically to make crafting foamboard even more precise, creative and easy. Now they are available to you!

## FOAMBOARD CUTTING

Seawhite now offer purpose built foamboard cutting tools and accessories. Information and instruction sheets will be sent with your order.

### STRAIGHT CUTTER

Cut perfect straight edges on any depth of foamboard. Features adjustable blade depth, quick change blade clip, magnetic blade slot, on-board blade storage drawer and five blades.

DACFSC    **Straight Cutter**    for 3 & 5mm foamboard    each

### FREESTYLE CUTTER

Cut freeform shapes with this innovative push-style cutter. Easy to use, just insert the blade into the board and push to follow the desired shape. Features ergonomic handle, on-board blade storage compartment, blade safety shield and two blades.

DACFCC    **Freestyle Cutter**    for 5mm only    each

### V GROOVE CUTTER

Cut foamboard V-grooves to perfection using the V-Groove Cutter. Features include adjustable blade depth, quick change blade clips, magnetic blade slot, on-board blade storage drawer and five blades.

DACFVC    **V Groover**    create curves, 3 & 5mm    each

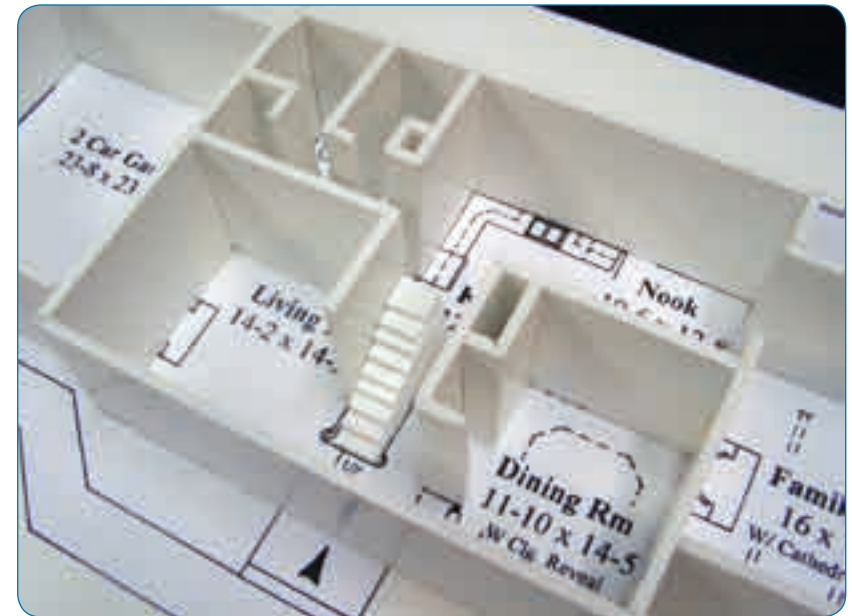

### RABBET CUTTER

Create perfect foamboard joints with the Rabbet Cutter. The innovative ergonomic construction and dual blade action create one-stroke finished results. Also features on-board blade storage and includes two blades. Use as either a right-handed push style or left-handed pull style action.

DACFRC    **Rabbet Cutter**    for 90° joints, 5mm only    each
